

Healthy & Beautiful Green

Is the lawn and yard you'll have next spring with Specialty Gardens LLC Fall and Winter landscape prep!

We

- Dethatch
- Aerate
- Fertilize
- Compost
- Overseed

lawn to remove grass clipping and other debris, loosen soil to let nutrients into grass roots, and overseed all types of grasses that yields a rich, green and healthy lawn for spring.

We can also apply weed control for those pesky and hard to kill weeds that keeps coming back time after time.

Fall is the time to improve your lawn's drainage and resistance to disease.
